LOCAL FIRST AID PROCEDURES

Date: April 2024

Review: April 2025

This document sets out **localised procedures** that are not mentioned in the ATT First Aid Policy, which can be located on the academy's website.

Qualified First Aiders and Access to First Aid Equipment:

The names and normal location for each First Aider and the location of First Aid kits are available throughout school. All members of staff are required to identify the nearest First Aid qualified staff and location of the nearest First Aid kit to their normal working area. Please see **appendix 1** for a full First Aider list.

First Aid Coordinator is responsible for ensuring that the contents of the first aid box are replaced as necessary and for ensuring that first aid training is repeated **every 3 years**.

First aid boxes are to be taken on school trips, and the person in charge is appointed to be responsible for the first aid box and for taking charge of the situation, i.e., calling assistance if a serious injury or illness occurs.

First Aid kits are located in:

Medical Room - H Block
Academy Coordinators Office – B Block
Mrs Fulcher Office – Main Block
Site Supervisors Office – Near the main entrance/main hall
Staff Workspace – Main Block
DT Classrooms (B11, B10, B9, B8) - B Block
DT Technician Office – B Block
Food Tech Classrooms (C28, C27)
Science Prep Room - C Block
Art Technician Office – S Block
PE Office – Sports Hall + Outside areas.
A3 Classroom – A Block
School Kitchen – Food Hall

All School Vehicles.

Staff members who use contents of First Aid kits are to ensure that they are replenished from stores held on site. The First Aid Coordinator will also conduct regular checks of First Aid kits to ensure contents are adequate for purpose.

AED:

There are two Automated External Defibrillators on site. The locations of these are shown below.

Please refer to **appendix 2** for a map of their locations.

- Outside the Sports Hall on A Block Playground.
- On the wall outside the Main Reception in the corridor.

Transport to hospital:

If the First Aider considers it necessary, the injured person will be sent directly to hospital (normally by ambulance). Parents and/or guardians <u>must</u> also be informed. No casualty should be allowed to travel to hospital unaccompanied and an accompanying adult(s) will be designated in situations where the parents cannot be contacted. Please refer to the Safeguarding Policy for this.

On-Site Procedures:

In the event of an accident or incident the following procedure should be followed:

- The closest member of staff will seek the assistance of a qualified first aider.
- The first aider will assess the injury and undertake the appropriate first aid treatment.
- If appropriate, the first aider will contact the emergency services and remain with the injured person until assistance arrives.
- If deemed appropriate the first aider will contact the injured person's emergency contact or next of kin.
- The first aider or relevant member of staff will fill out the first aid and accident record book and include the required details.
- If it is judged that a pupil is too unwell to remain at school but does not require
 the assistance of the emergency services, the first aider will contact the pupil's
 parents or next of kin and recommend next steps to them.

Please refer to Appendix 3.

Off-site Procedures:

When staff take pupils off the school premises, they should ensure they have the following:

- A first aid container with appropriate supplies.
- A mobile, on which they can contact the school and the school can contact the staff member.
- A list of the specific medical needs of the pupils and any required equipment
- Emergency contact details for the pupils

Emergency Services

If 999 is called the following information must be given;

- The Academy's telephone number 01473 742315
- The Academy's address Westbourne Academy, Marlow Road, Ipswich, IP1 5JN
- Give your name.
- Name of casualty and symptoms/any known medical condition.
- Inform ambulance control of the best entrance e.g. main reception entrance.
- If an ambulance is called to the main reception, A member of staff should go to the entrance to give directions to the ambulance crew.

If the emergency services are called the parent of the casualty will be telephoned by the academy as soon as is practicable

Recording and Reporting

An accident form will be completed by the first aider on the same day or as soon as possible after an incident resulting in an injury. As much detail as possible should be supplied when reporting an accident. An accident form will be completed for all injuries that happen, however minor, this will be via the Microsoft Form.

Reporting to the HSE

The Academy Coordinator will keep a record of any accident which results in a reportable injury, disease, or dangerous occurrence as defined in the RIDDOR 2013 legislation (regulations 4, 5, 6 and 7).

The Academy Coordinator will report these to the Health and Safety Executive as soon as is reasonably practicable and in any event within 10 days of the incident. Reportable injuries, diseases or dangerous occurrences include:

- Death
- Specified injuries, which are:
 - o Fractures, other than to fingers, thumbs and toes
 - Amputations
 - Any injury likely to lead to permanent loss of sight or reduction in sight.
 - Any crush injury to the head or torso causing damage to the brain or internal organs.
 - Serious burns (including scalding), which:
 - Cover more than 10% of the body.
 - Cause significant damage to the eyes, respiratory system, or other vital organs.
 - Any scalping requiring hospital treatment.
 - Any loss of consciousness caused by head injury or asphyxia
- Injuries where an employee is away from work or unable to perform their normal work duties for more than 7 consecutive days (not including the day of the incident)
- Where an accident leads to someone being taken to hospital.
- Near-miss events that do not result in an injury, but could have done. Examples
 of near-miss events relevant to schools include, but are not limited to:
 - The collapse or failure of load-bearing parts of lifts and lifting equipment
 - The accidental release of a biological agent likely to cause severe human illness
 - The accidental release or escape of any substance that may cause a serious injury or damage to health
 - o An electrical short circuit or overload causing a fire or explosion

Medical Room

The Education (School Premises) Regs 1996 require that every school have a suitable room that can be used for medical treatment when required. This room is equipped with a sink, and is near the unisex toilets. At Westbourne, this room is located immediately opposite "The Hub" (H6).

Disposable gloves and handwashing facilities are available in the medical room.

Head Injuries

Injuries to the head need to be treated with particular care. Any evidence of the following symptoms may indicate serious injury and an emergency treatment should be sort.

- Unconsciousness, or lack of full consciousness (i.e. difficulty keeping eyes open)
- Confusion
- strange or unusual behaviour such as sudden aggression
- any problems with memory
- persistent headache
- disorientation, double vision, slurred speech or other malfunction of the senses
- nausea and vomiting.
- unequal pupil size
- pale yellow fluid or watery blood coming from ears or nose
- bleeding from scalp that cannot quickly be stopped
- loss of balance
- loss of feeling in any part of body
- general weakness
- seizure or fit.

Where a student receives a head injury their parents/carers should be informed. This should be done immediately by telephone if symptoms described above occur. For more minor bumps etc., the parent should be informed as soon as practical to do so.

Appendix 1 – List of First Aiders

FIRST AIDERS

PLEASE DISPLAY IN YOUR WORK AREA

If you require a First Aider, please contact one of the following qualified First Aiders:

ALISON BROWN Defibrillator Training (AED) ALISON BROWN Defibrillator Training (AED) KARL CARR Anaphylaxis & Defibrillator Training (AED) KARL CARR Anaphylaxis & Defibrillator Training (AED) CARR Anaphylaxis & Defibrillator Training (AED) DEGVILLE Defibrillator Training (AED) DEGVILLE Defibrillator Training (AED) LIEREMY FARINOS Anaphylaxis & Defibrillator Training (AED) LIEREMY FARINOS Anaphylaxis & Defibrillator Training (AED) MANNA FULCHER Defibrillator Training (AED) NATASHA GOODCHILD Defibrillator Training (AED) NATASHA GOODCHILD Defibrillator Training (AED) RAYLEIGH HALE Defibrillator Training (AED) RAYLEIGH HALE Defibrillator Training (AED) RAHIMA ISLAM Defibrillator Training (AED) RAHIMA ISLAM Defibrillator Training (AED) ANNALEE JOHNSON Defibrillator Training (AED) REECE JONES Defibrillator Training (AED) NONNA MULLAN Defibrillator Training (AED) CALLUM NICHOLS Defibrillator Training (AED) NYSSA OLIVER Defibrillator Training (AED) NYSSA OLIVER Defibrillator Training (AED) DONNA PAGE Defibrillator Training (AED) DONNA PAGE Defibrillator Training (AED) DONNA PAGE Defibrillator Training (AED) DONNE PAGE Defibrillator Training (AED) DONNE PAGE Defibrillator Training (AED) COURTNEY PANE Defibrillator Training (AED) CHRISTINA PERCY Anaphylaxis & Defibrillator Training (AED) CHRISTINA PERCY Anaphylaxis & Defibrillator Training (AED) DANIEL PAYNE Defibrillator Training (AED) DANIEL PAYNE Defibrillator Training (AED) COURTNEY PORTER Defibrillator Training (AED) DANIEL SHARPE Defibrillator Training (AED) D	CHARLENE	ALCOCK		Defibrillator Training (AED)

Appendix 2 – AED Locations

Calling for Medical Assistance

In the event of an accident, incident or medical episode, please seek the assistance of a qualified First Aider as soon as possible. When calling for assistance, to ensure the First Aider(s) can respond appropriately, please state the necessary category, giving brief details of the situation.

If you are unable to access a radio or Broggogg please send someone immediately to the main reception. If the situation is Life Threatening then an ambulance should be called at the earliest opportunity by dialling 999.

Category 1

An immediate response to a life-threatening condition (e.g. cardiac or respiratory arrest, anaphylaxis)

Category 2

A serious condition (e.g. heavy bleeding, broken bone, head injury)

Category 3

An urgent problem (e.g. an uncomplicated diabetic issue)

Category 4

A non-urgent problem

(e.g. minor scratch, minor cut, feeling sick etc)

Bromcom - How to send emergency alert

All staff members have access to the **Send Alert** option on **Bromcom** by clicking on your image on the top right your **Bromcom** screen. Staff should state where assistance is required and give a brief description in the comment <u>box.*</u>The Alert will then be sent to members of staff selected to receive them, so assistance can be sent.

*please select the medical tab when requesting First Aid
